FINANCIAL AND COMMERCIAL.

MONEY MARKET. THURSDAY, July 17-6 P. M.

There was a very dull market this morning. There were very few sellers, and buyers were not at all pleuty. At the first board Indiana fives declined? per cent ; Erie Railroad, 2 ; Panama, 2 ; Cleveland and Totedo, 1; Chicago and Rock Island, 1. Nicaragua Transit advanced 4 per cent. Reading opened and closed firm at yesterday's prices. Buyers of Erie and Cleveland and Toledo, on time, their own option, were a little active to-day, but the bears met them freely. Railroad bonds were much neglected this morning, but those sold brought full prices. The only Western railroad stock at all active was Cleveland and Toledo. Holders can carry good stocks so easy that there are none pressing for sale, and lower prices will not bring many out unless a change should take place in the money market. The movements of specie are watched with a great deal of so licitude, and many are under the impression that the shipments during the rest of this month and the whole of next will be to a very large amount. Others think that the European demand for our stock securities will furnish a supply of exchange suffi cient to check the exportation of specie and keep the amount down to a moderate figure. There i plausibility in both of these theories, but the difficulty to overcome in the operation of the latter is the advance recently realized in this market, on such securities as foreigners invest in, and the possibility that orders for purchasing may be withdrawn until low prices rule.

After the adjournment of the board, the following

heavy. There appears to be no disposition to ope rate for a rise. Holders generally are firm and confident, but all the usual purchasers appear to have as many stocks as they want, and would much rather reduce than increase their line. We do not look for any decline of consequence in prices, unless an unfavorable change takes place in the money market; neither do we look for any improvement. Of the two classes of operators, the bears have just now the

best side. Our political advices from Europe are of the most favorable character. All the political difficulties which have so long been a source of excitement, and which have kept the people of both countries in a fever of agitation, are about being amicably arranged to the satisfaction of all parties. We understand that Lord Clarendon and Mr. Dallas have agreed upon the terms of settlement of the Central American question. It is agreed that the British government shall cede the Bay Islands back to Honduras

and abandon its protectorate over the Mosquito ter-ritory. It is, we believe, stipulated that the government of Nicaragua shall exercise the same power in relation to the Mosquito Indians which has heretofore been exercised by the government of Great Britain. This is the basis of the new treaty, and when it is completed all the questions in dispute between Great Britain and the United States will be satisfactorily adjusted. How soon new ones will arise no one can tell, but we hardly believe it possible to raise another political question of sufficient importance to involve the two countries in a war with each other. We have just removed several very ugly matters of dispute-matters which at one une threatened most serious consequences. The tries are so intimately blended that any interruption is attended with most disastrous results. The go vernments of both countries should, therefore, b disposed to conciliate and dispose of any political point that may arise, in its earliest stages. We are now tree from agitation and excitement in our political relations with Great Britain, and with the right spirit among our rulers it will be an easy matter to avoid further entanglements. There is nothing now at issue to disturb the financial or commercial classes, and even the fancy stock speculators of Wall street can go on inflating their bubbles without fears of any sudden collapse from the appearance of a British ficet off Sandy Hook.

The Chicago Democrat, of the 14th inst., says:-

The Chicago Democrat, of the 14th inst., says:

We learned on Saturday, by a gentieman from lowe cay, that the bill granting the lands appropriated by Congress to the State of lowa, to the different railroads mentered in the act of Congress, bad passed the House, and had been acted upon in the Secate as far as the eighth section; and as the other sections are not material, it is probably now the law of the State We saw a copy of the bill, and have so doubt it will be satisfactory to all parter. The buil grants the lands west of Burlington to the Burlington and Missouri Railroad Company; those west of Lavons to the Lyons lowa Conventy; those west of Lavons to the Lyons lowa Conventy; those west of Lyons to the Lyons lowa Convent Railroad Company. The law makes it necessary that the roads should all be finished in ten years. The two southern roads at the two northern roads at most in five years.

The gross carnings of the Eric Railroad Company.

The gross earnings for the present fiscal year will, without doubt, exceed six millions of dollars.

At the meeting of stockholders of the Nicaragua Accessory Transit Company, held a few days since, a notice of which we made at the time, the following financial statement was made by a gentleman present:—

the finances, he would state briefly that the company owned property, including estimated value of grant from the State of Nicaragua on the 1st of January, 1853, amounting to \$5,647,078 97.

The liabilities of the company at the same period

owned property, including estimated value of grant from the State of Nicaragua on the 1st of January, 1853, amounting to \$5,647,078 97.

The liabilities of the company at the same period amounted to \$621,015 34; net value of property January 1, 1853, \$4,922,063 63.

On the 1st of June, 1853, the company owned property, including estimated value of grant from State of Nicaragua, amounting to \$5,114,648 82. The liabilities of the company at the same period amounted to \$365,070 16; net value of property, \$5,348,678 65.

Improvement in the condition of the company from January 1 to June 1, 1853, \$422,515 05. The foregoing result has been realized from the business of the company, as appears by the following statement from January 1 to June 1, 1853, effect from various sources, including cash on hand January 1, 1853, \$1,082,878 85. The expenditures for the same per of were \$1,079,404 26. Cash on hand June 1,1853, \$3,474 59.

The company owned property, including estimated value of grant from the State of Nicaragua, on the 1st of February, 1856, amounting to \$6,419,357 48—the liabilities of the company, at the same period, amounting to \$404,312 21. Net value of property, February 1, 1856, \$6,016,045 27. Apparent condition of the company, June 1, 1853, to February 1, 1806, \$665,406 61—from which deduct this sunf, being amount of assets received from the canal company having assumed the liabilities of the canal company having assumed the liabilities of the canal company having assumed the liabilities of the canal company hereofore deducted from estimated value of the franchise, is now added thereto, \$206,309 68.

Actual improvement in the condition of the company from June 1, 1856, to February 1, 1856, \$450,166 93.

The foregoing result has been realized from the business of the company, as appears by the following statement of receipts from various sources from June 1, 1853, to February 1, 1856, including cash on hand June 1, 1853, to February 1, 1856, including cash on hand June 1, 1853, to February 1, 1856, includin

Among the assets is an item representing the estimated value of the grant from the State of Nicara-gua. It does not appear what the estimated value is, but recent advices from Nicaragua show that the company's grants do not possess much value. The government Commissioners appointed by Gen. Walker to investigate the company's affairs, have reported, and the result is not very favorable to the Transit Company. After crediting the company with the appraised value of the property seized, the Commissioners show a balance due the government of Nicaragua of nearly three hundred thousand dol lars. In the face of this fact the above exhibit of assets is not of much value, particularly that portion representing the "estimated value of the grant from the State of Nicaragua." It is our impression that the reputed "liabilities" of the company will use up nearly or quite all the other assets. It looks now as though the Accessory Transit Company of

Nicaragua was permanently defunct. The earnings of the La Crosse and Milwaukie Railroad Company for the second week in this month amount to \$10,240 81. Amount of toils collected on all the canals of the
